Zoetermeer, September 2018

Dear two student,

Especially for you I'm writing this introduction in English. You have chosen a special course of education. From the fourth year onwards there is more focus on the I.B. exam. But there is more. You are also going into the last phase of education at this school.

As for other students the "upper years" are an exciting period with some new elements. I think that you are better equipped than other students to make this a successful year. In the past three years you have learned a lot about making practical assignments, time planning and being responsible for your work.

The fact that you have been taught in English is also an advantage. Apart from the normal Final Exams, there is the IB you have to study for. The coming three years are very important. See them as a challenge and a way of exploiting your skills to the utmost.

In the Final Examination Requirements (F.E.R.) or P.T.A. in Dutch are stated all the official regulations. You can find this document on the website and in the ELO.

I wish you, together with your teachers, a lot of success.

Drs. M.A. de Haas

Head of the bilingual department
